

Brass Ring (Annie's Song)

Eric Myles Project

Verse 1

Annie's not here right now
She's working in the coffee shop in town
Saving up her pennies so she can break free
Her dreams are bigger than this small town

Annie's not here today
She caught the first bus to anywhere
It's taking her away from the place she still calls home
Annie's not here today

Verse 2

Annie's not here right now
She's reaching for the shiny brass ring and it's getting closer still
Riding the quickest stead on the merry go round
And the brass ring keeps her going round, going round

Annie's not here today
She's living her dreams in tinsel town hoping to be found
In the big shiny city on the hill far away
Let her go... let her go... let her go...

Verse 3

Annie's not here right now
She found the shiny brass ring and she's showing it to the crowd
She placed it high on the mantle where it sits today
and it makes her proud, and it makes her proud

Annie's not here today
Her dreams are bigger than this small town every one knows
But she lives there still in the hearts of many who let her go
Annie's not here today

Verse 4

Annie's not here right now
She's making her way doing her best and it feels so good
Let her go... let her go
Annie's not here right now

Annie's not here today
She grabbed the shiny brass ring on the merry, merry go round
Let her go... let her go...
Annie's not here right now
